

Antoinette's Training: How the Job Really Runs

From the 25 Sep handover call with the previous dialler. Where this differs from the SOPs, follow this.

The 10 things that matter most

- 1 **Speed to lead, even out of hours.** Acknowledgement text straight away, task for 9–10am. Other mentors are hitting their feeds too.
- 2 **Wait a few minutes** after a new app. Many then book a call, and it merges into the same lead.
- 3 **Booked calls are urgent.** Videos out + fit check before Freeman's slot.
- 4 **Most VSL bookings are info-seekers.** Ask “ready to take action, or looking for info?”. Cancel if info only, educate, then rebook.
- 5 **Don't overwhelm.** £7k+ → rent-to-rent only. Management for lower funds / nervous investors.
- 6 **Webinar leads are the best** and they book a discovery call with you first.
- 7 **Go deeper on pain.** “What would that mean for you?” Anchor back to it when cold feet hit.
- 8 **Don't over-remind.** Morning text + one call + 15-min heads-up. People have complained about being chased.
- 9 **Notes for Freeman** before every call. Funds + goals on top, plus personal rapport bits.
- 10 **Close + Airtable always up to date.** Freeman tracks cancellations in Airtable.

Objections her way

They say	You say
12-hour shifts / no time	Share Amara's video: full 12-hour shifts, still does it part-time. About 3–5 hours a week is enough.
Not enough money	Don't give up on the dream, save up, this business can break even quickly. ~£3k → management.
“Already booked, why the questions?”	Freeman's one person and can't take everyone's call. This checks it's the right next step and gets you prepared.
“Booked with another mentor”	Jump on a call with Freeman too so you can compare like for like. (She won one this way.)
80% sure	Anchor to their pain points. Tell Freeman they're 80%, not 100%.

Watch out for

- Under £5k applicants sometimes have more (family money). Don't write them off.
- Leads often ghost **after** watching the videos, once they see the work involved. Follow up 3 times, last message leaves the door open, then NGMI.
- Don't let Setter Pipeline fill up with hundreds of dead leads (check with Freeman whether he wants NGMI sooner).
- Close tasks sometimes disappear. Double-check your list.
- Merge duplicate leads (same email/phone), but note if the funding answers changed.
- VSL lead flow is lumpy: 0–5 a day, often overnight. Plan your day around follow-up tasks.
